

SO YOU RECORDED A LECTURE NOW WHAT?

From your raw video, you can...

CREATE REUSABLE LEARNING OBJECTS

Clip, edit and enhance a section of video to create a professional, reusable learning object.

CREATE CLIPS

Cut your video into bite-size pieces. Try and keep your videos under 6 minutes in length.

ADD QUIZ QUESTIONS

Create an interactive video by adding quiz questions in Kaltura.

ADD CAPTIONS

Make your video accessible by editing the automatic captions for accuracy.

TRANSLATE

Expand reach by including transcripts in multiple languages.

OTHER USES

- Use as a building block for a flipped classroom lesson
- Share with colleagues
- Share across courses for review and to connect course concepts
- Assign to students to critique
- Use as part of a continuing education offering
- As a Universal Design for Learning component, provide as an option along with reading (Multiple means of representation)
- Use as a part of a Voicethread to add lecture content with commentary to an asynchronous course
- Provide to students who missed class
- Provide to students for studying and test preparation purposes
- Add to a playlist to sequence learning
- Use as a stem in an exam question
- Share publicly to the community or the world
- Add to your portfolio (FARES) as evidence of teaching excellence
- Use as a data point in a SOTL research project
